

POLICE STOP AUCTION OF JOBLESS MINERS REFUSE SLASH IN WAGES

LEWIS COUNSELS UNION TO STICK

Miners Advised To Put Off
Drafting Wage Demand
Until February.

(By the Associated Press)

INDIANAPOLIS, Sept. 20.—No wage reduction of coal miners must be permitted and all resources of the miners' unions must be made available to back up the policy in opposition to the wage cut, John L. Lewis, president of the United Mine Workers of America, declared here today in his report made at the opening of the biennial convention of the international union.

He also recommended a postponement until next February of the miner's adoption of a definite wage demand and declared that with all wage agreements expiring on March 31, 1922, "the full influence and economic power of our great membership may thus be utilized to the advantage of our people, for the achievement of our ideals."

Much of Mr. Lewis' 40,000 word report related to the wage reduction question, apparently indicating that would be among the most important business matters before the convention, which brought together between 1,500 and 1,600 representatives of the local unions scattered throughout the United States and Canada.

Other essential points of Mr. Lewis' report included the following:

A recommendation that the convention reaffirm its declaration of two years ago favoring nationalization of coal mines.

A recommendation that "the fight in the Mingo county district must be won."

A recommendation that legal procedure be instituted to make a full test of the constitutionality of the Kansas industrial court law.

The industrial court action, Mr. Lewis asserted, was "initiated by an astute and ambitious policy," and he asserted that its provisions, while violating the federal constitution in that it took miner's rights were in connection with the agreement between miners and operators.

He stated that the international body had ordered Howat to put the men back to work, but that Howat had not complied with the order in either case.

Union Under Fire.

"Our union," said Lewis in this connection, "is being charged in many quarters with violation of its obligation as concern our wage agreement and therefore it becomes incumbent upon us in such plain cases as these, to decline to justify such criticism and to make every effort to effect proper and harmonious settlement. The defiance of the constituted authorities of our organization by district officers or others who are pledged to uphold its laws and rules, is indeed reprehensible. Unless our union can regulate its own affairs and effect its definite rules and provisions of its constitution, there is indeed small hope that it can exercise any of its constitution. There is any of its great influence in public affairs of our country. In these two cases, I ask the deliberation of the unprejudiced delegates to this convention and indorsement of the international board."

Mr. and Mrs. Elmer Forrest of Stratford spent Sunday in Ada the guests of Mr. and Mrs. John Agnew.

Help For Submarine Is Ordered Tuesday By Navy Department

(By the Associated Press)

WASHINGTON, Sept. 20.—Assistance for the American submarine R-27 which Sunday night sent out a distress call while en route from Coco Eolo, Panama canal zone to one of the United States naval bases on Guantanamo Bay, Cuba, has been ordered by the navy department.

Reports that the submarine needed aid reached the department yesterday and the commandant at Guantanamo base was ordered to send out a tug. The report did not indicate the trouble but it was not believed to be serious.

The R-27 is in the class of 495 tons, measuring 175 over all and has a surface speed of 14 knots. Navy department officials had no information as to the size of her complement and the present cruise.

614 STUDENTS IN NORMAL FOR YEAR

Enrollment Reaches Highest
Peak on Record Monday;
School at Work.

With the enrollment standing at 614 Monday afternoon, fall registration at the Normal had practically closed, according to announcements from the registrar's office. A large number of students, teachers who had just been let out of summer teaching work in rural districts, were enrolled Monday. Some instructors expressed the belief that more new students would be listed at the beginning of the winter term, enough to more than make up for the few teachers who will be dropping out of school at that time to take up teaching.

Among the students are to be found many who have been unable to get regular work and are taking advantage of an opportunity to go to school. Several are working their way through school, and it was estimated that several others could be secured from out of town, provided they could get a place to work for their room and board.

The Normal is extending an invitation to the citizens of Ada, especially the football fans, to come out Wednesday afternoon at 3 p. m. and see the scrimmage game between the Roff National Guard eleven and the Normal grid kings. Coach Thompson will throw a total of more than 35 men into action during the game, he said. Another scrimmage game will be played with the Maud high school on Friday afternoon and all are invited. No admission will be charged to these scrimmage games as they are not on the regular schedule.

Instructors in charge of the extension work division report a decided increase in the demand for work. Many teachers of the city have been making arrangements recently to take up extension work and reports from Shawnee, Lehigh, Pauls Valley, Holdenville, Yeager and several other places show a growing interest in this division.

Prof. Ed Davis has been out of the Normal for the past few days looking after business matters in the interest of the school. He will return at the end of the week, it was reported. During his absence his work has been divided among other instructors and no time is being lost.

The Normal dismissed school from ten to twelve o'clock Monday morning to give the students an opportunity to attend the triple military funeral. Two of the returned soldiers were former students of the Normal.

Y. W. C. A. Starts Work.

Announcement was made Monday of the meeting of the Y. W. C. A. set for Tuesday afternoon. The meeting is being called for the purpose of reorganizing the Association and electing new officers for the coming year. Plans for the work of the association will be discussed and many necessary matters will come up. An invitation has been extended to every girl in the Normal to attend and join.

Reports from the agricultural department show that this work has been reorganized under the new head of the agricultural department and is starting its work for the term. Prof. McCormack has arrived from Tennessee and has his students taking a new interest in the work, the report continued. Prof. McCormack was selected to fill the vacancy caused by the resignation of Prof. B. A. Pratt.

Okla. Weather.
Tonight and Wednesday cloudy.

THEY EXPECT TO MAKE A BIG 'KILLING' WITH THE VISITING 'GOATS'!

TABBY CAT MUST HAVE HIS PLACE FOR PLAYGROUND

(By the Associated Press)
NEW YORK, Sept. 19.—A woman who owns a yard facing 50 feet on Fifth Avenue at 39th street, in the center of the city's most fashionable shopping district, refuses to sell it because her cat "has to have a place to play in." The property is worth about \$750,000.

The dollars paid on it each year in taxes would, if stacked dollar on dollar, make a hurdle not to be sneered at by anything short of the cow who jumped over the moon. The cat is "just one of these mere every day walkin' round cats." It was never known to take a prize at a cat show.

Other wealthy people have given strange reasons for refusing to sell business district property which was eagerly sought by many buyers. Some time ago a man who owned a building in Broadway just below Times Square wanted contract stipulations that none of the prospective buyers would lease it to certain businesses. His list began with aviary and went right on down the alphabet to zylophone dealers, skipping so few lines of business that none would take the place.

Freight Rates Lower For Vegetables Over Rocky Mountain Line

(By the Associated Press)

WASHINGTON, Sept. 20.—Decision of the Transcontinental railroad to reduce rates on vegetables between the Rocky mountains and Chicago and the Mississippi river was announced today by the interstate commerce commission. The reduction will substitute a 15 percent increase over the rate in effect August 25, 1920, and for the 33 and 1-3 percent increase which went into effect August 26, 1920, "thus removing more than half of the increase made at that time," the commission said.

Held Special Election.

PHILADELPHIA, Sept. 20.—A special election for a state conference man at large to fill a vacancy was to be held throughout Pennsylvania today. There are four candidates.

BEBEE FIELD NEW INTEREST CENTER

Hotels Report Arrival of
Texas Promoters in
Old Circles.

An influx of oil operators this week from various points in Texas stimulated a demand for reservations in local hotels and caused interest in Pontotoc county fields to see a higher level, according to a report made Tuesday by local hotel keepers.

Although all rooms have not been reserved by oil enthusiasts as was reported Monday, the increase in requests following the arrival here Sunday and Monday of a good quota of men interested in the local fields took up much of the slack in many lines of oil business that was reported here two months ago.

Hotel clerks said they had noticed nothing of the sensational nature that indicates a "boom" in the arrival of new guests who are here with the admitted intention of watching developments. While expressing considerable conservatism in the new oil outlook in Pontotoc county, visiting promoters interested in the fields frankly stated that they had cause to believe that the Ada field now looks better than early in the summer.

"All our rooms are not taken. We have several doubles today vacant and there is nothing in the slight revival of business to point to anything startling," the Harris hotel reported. "The rumor that we are turning away guests for lack of accommodations is without foundation."

Interest apparently is centering just now on the Bebee field where two wells are said to be approaching the sand that produced oil in the Discovery well. One of the two wells is said to be practically on the sand but nothing is available at this time. The other well, drilled with a rotary outfit on the Hatcher farm, is said to be nearing the depth where the Discovery sand is expected.

The uplift movement needs less block and more tackle.

PUNCHERS SET OUT ON HORSE BACK FOR N. Y.

(By the Associated Press)

PIERRE, S. D., Sept. 20.—To reach New York City from Yellowstone National Park on horseback by January 1, is the wager that three Jackson Hole, Wyoming, cowboys who have just started on the journey, have made. Dressed in typical style, the terms of wager require that they travel the entire distance on horseback, smoke every day without buying tobacco and forbids purchasing fresh horses, no matter how serious the need. They can, however, "swap" mounts, if the ones they are riding give out.

The men are B. T. Mears, who heads the party and who is known on the range as "Wild Horse Sam", D.M. Steel who sails under the title of "Flapjack Steel" and H. E. Leslie, known on his home range as "Mulligan Pete". The trio will travel the Black and Yellow auto trails as far as Chicago and from there will take the shortest route to New York.

Kansas Wheat Crop Pledged To Forced Pooling Principle

(By the Associated Press)

WICHITA, Kan., Sept. 20.—Seven million bushels of wheat have been put under pledge in Kansas by the National Wheat Growers Association, which stands on the basic principle that it shall market 100 per cent of its members' wheat. This is the organization which insisted on at least a degree of compulsory pooling and so refused to join the movement fostered by the American Farm Bureau Federation which resulted in formation of the U. S. Grain Growers, Inc., with provision for optional pooling. Kansas is where the national wheat growers' headquarters are located, and it gave 2,000,000 more bushels more than the 5,000,000 Sept. 1 goal the association set. Incorporation has been effected in this state, following similar steps in Oklahoma. W. H. McGreevy of this city, national secretary-treasurer, says incorporation will follow also in Texas, Colorado, Nebraska and North Dakota. The U. S. Grain Growers, Inc., also has taken out a state charter and is making headway.

HEAD OF OZARK TRAILS COMING TO CITY OCT. 1

J. E. Swepton, national president of the Ozark Trails association, will be in Ada about October 1 to outline work on the Ozark Trails division from Stratford to Texargana, Texas, according to a letter received Tuesday by N. B. Stall, president of the Good Roads Motor Club, from E. S. Sittel, of Shawnee, president of the Chandler-Shawnee-Sulphur division.

His visit to Ada will follow his appearing in Shawnee on September 14, 15 and 16 to take part in the program of the national trails convention.

Important developments on the Stratford-Texargana division of the Ozark Trails is expected to result from Swepton's visit here. Further announcement on his coming will be made later.

TULSA DOWNS ADA IN SECOND HITCH

Cosden and Company Opens
Swat Rally for Victory
of 5-1 Monday.

After leading off Sunday with a comparatively easy victory 6-3 in the opening game of the series, Ada slumped Monday and dropped the second game of the string to Cosden and company of Tulsa 5 to 1. Heavy hitting of the visitors coupled with their ability to squeeze a run at intervals spelled defeat for the locals. The Tulsans started their rally in the third inning when Palone trotted home on a misplay, Cover heaving to a base which was not covered.

Tulsa netted 9 hits to 3 allowed the local team. Today's game at the Fair Ground park will complete the series. With a game each, both nines are expected to show their hardest fight today in an effort to get an edge on honors for the three games. Palone, Cosden center fielder, led the batting with three hits, Fain, Young and Medler scoring one each for Ada Monday.

The game by innings:

First Inning.
Cosden—Shanon walked. Murphy forced Shanon at second. Fain to R. Waner. Bryan forced Murphy at second. Rutledge to R. Waner. On the return throw to first, Waner threw high and Fain made a sensational catch and held the runner on the base. Palone singled, Bryan going to third. Becker flew out to P. Waner.

Ada—R. Waner flew out to Palone. Fain walked. P. Waner hit into a double play, by flying out to Ellis who doubled Fain at first.

Second Inning.
Cosden—Tate flew out to R. Waner. Kinnerman flew out to Young. Ellis was hit by a pitched ball. Giltner singled, Ellis taking third. Shanon was given a free pass, filling the bases. Murphy struck out.

Ada—Rutledge was out, Ellis to Bryan. Young was out, Giltner to Bryan. Medler was safe on second when Becker dropped a long fly to left field. Cover flew out to Ellis.

Third Inning.
Cosden—Bryan struck out. Palone hit for two bases. Becker was safe when Young, on a fielder's choice, failed to touch out Palone at third. Becker stole second. Cover threw to the base, but it was not covered, and Palone trotted home on the misplay. Tate was out. R. Waner to Rutledge. Kinnerman was hit by a pitched ball. Ellis grounded out to Rutledge.

Ada—West and Roach struck out. R. Waner was out, Shanon to Bryan.

Fourth Inning.
Cosden—Giltner was out, Young to Rutledge. Shanon flew out to Rutledge. Murphy flew out to R. Waner.

Ada—Fain flew out to Shanon. P. Waner was out, Giltner to Bryan. Rutledge walked. Young was hit by a pitched ball. Medler hit to Tate, forcing Young at second.

Fifth Inning.
Cosden—Bryan was safe on Young's wild heave to first. He took second and third on wild throws. Palone was out, P. Waner to Rutledge. Tate walked. Kinnerman flew out to R. Waner.

Ada—Cover struck out. West walked. Roach struck out. R. Waner flew out to Palone.

Sixth Inning.
Cosden—Ellis was safe on third strike. Giltner was out, P. Waner to Rutledge. Ellis taking third. Shanon was safe on Rutledge's error, Ellis scoring. Shanon went to (Continued on Page Two)

LEDoux ESCAPES CLASH WITH LAW

Army of Unemployed Start
Parade Which Ends in
Small Band.

(By the Associated Press)

NEW YORK, Sept. 20.—Blocked by police reserves in his plans to feed and to "sell" members of the jobless army at a "slave auction" last night, Urbain Ledoux remained in retirement today.

Fearing that further clashes with the police would result in bloodshed and possible lawless vice, he said today, prompted him to call off his plans contemplating any further assemblage of the unemployed.

"I do not want trouble," he said. "I am trying to avoid it. I know the temper of the men. I have talked with them. I have seen the police and I know their temper. I know there would be a terrific clash and someone would be killed."

Crowds Surge Around.

Ledoux called off his proposed auction yesterday afternoon after the police had continued their vigorous methods in preventing him from distributing bonds to the jobless men and from holding a mass meeting in a hall he rented. That they mean business was very evident, he said. Nevertheless, several hundred of the unemployed men and thousands of curious spectators were on hand at Bryant park at 11 p. m., the hour set for the auction. Police reserves struggled for more than an hour with the crowd, yielding night sticks on the recalcitrant heads.

Then a column of the unemployed broke through the police line and paraded to Central park. They marched down Broadway, the procession dwindling rapidly. By the time the column had marched to Madison square, it had shrunk to 50 men, who joined other homeless men sleeping on park benches.

FIRE IS DISASTROUS TO MEMPHIS BUILDING

MEMPHIS, Sept. 20.—Fire early today destroyed the plant of the Southern Boiler and Tanks Works and an adjoining warehouse and damaged several nearby buildings in an industrial district of North Memphis. The loss is estimated at approximately \$100,000.

BRITISH TO INVESTIGATE INTRIGUES IN RUSSIA

(By the Associated Press)

LONDON, Sept. 20.—The British government dispatched a strong note to Moscow calling attention of the soviet government to an alleged serious breach of faith included in the continuance of Russian throughout Asia and Afghanistan of a campaign of intrigues against Great Britain and an explanation is demanded.

Two Balloons Land.

(By the Associated Press)

Brussels, Sept. 20.—Two of five balloons which up to this morning had not been heard from after starting Sunday in the James Gordon Bennett international race were reported safely landed in a message received here this afternoon.

LLOYD GEORGE AND CURZON NOT TO ATTEND MEET

(By the Associated Press)

LONDON, Sept. 20.—It has been definitely decided that neither Mr. Lloyd George, the Premier, nor Lord Curzon, secretary of foreign affairs, will attend the Washington conference on disarmament and pacific problems in view of the impending developments in domestic politics, it was learned this afternoon.

Dr. M. L. Lewis, who has been in a hospital in Dallas for several days, is again in the city. While his condition has greatly improved, he will not be able to work for several weeks. He expects to undergo an operation as soon as his condition will permit.

Fred Gay spent Monday in Oklahoma City.

EARLIEST SNOW FALLS IN IOWA TOWN MONDAY

MASON CITY, Ia., Sept. 20.—What is believed to have been the earliest snow for Iowa in its history fell here yesterday. For a few minutes large flakes fell to the roofs of taller buildings and a few made their way to the streets below. Residents were busy last night clearing out furnaces but the mercury rose to 33 degrees at noon today.

Notice R. A. M.

Called convocation of Ada Chapter No. 26 R. A. M. at 8 o'clock this evening for work in Mark and Past Masters degrees. All Royal Arch Masons should be present.—A. Stauffer, High Priest.

SCHOOL TEACHERS IN POLITICS.

R. H. Wilson, state superintendent of education has made the unqualified announcement that he will be a contestant for the democratic nomination for chief executive of the state.

A school teacher executive! Wilson has a formidable machine behind him. One cannot pass lightly over the fact that the man who has been in charge of the educational interests of the state for eight years and who has been running for governor all that time, has an advantage that must be reckoned with.

But a school teacher executive! Our experience with the schoolroom academician has not been a happy one. "Teacher" in the schoolroom is one thing. But "teacher" in the governor's chair or president's chair is another. And, as has always proven to be the case, a most distasteful, wasteful, impractical "another." The mere name, in such connection is a handicap.

Wilson has managed to keep himself reasonably clear of the bourbon machine. That is, he has managed to both train with the hounds and run with the hair. But a school teacher in governmental affairs—some way we would feel more secure with an out-and-out machine politician, of some conscience, in the gubernatorial mansion.

A school teacher executive just won't go down. —Tulsa World.

And we thought we were living in the Twentieth century! For pure moss back demagoguery of the Seventeenth century the above takes the glass walking stick. The World takes the contemptuous view of the teaching profession that was held in the days when learning was thought beneath a man of affairs and which in small minds has lasted to some extent to our own day.

The News holds no brief for R. H. Wilson. We do not know his intentions and it would make no difference if we did. This case is a slur on the most important profession in modern civilized life and as such should be resented by every teacher in Oklahoma. Why should the name "teacher" be a handicap for any man seeking or occupying an executive position? In no other line of work is executive ability more urgently needed or exercised than in the schoolroom. From the smallest country school to the greatest university executive ability is constantly called into play and to make a success the teacher must possess an unusual degree of this element of character. He is trained as an executive from the beginning and this is more than can be said of the fellow who sits at the typewriter in an office and grinds out editorials at so much per.

It is natural that the World writer would prefer an out-and-out machine politician, that has been the history of the Republican party and naturally the World considers such men far better qualified for any office than any others.

As for the insinuations against President Wilson, the fact that the Harding administration has deviated to no perceptible degree from the policies followed by the preceding one, answers the question of his ability, if it is a matter of groundless judgment under discussion.

The man who wrote this has forgotten that one of the shining stars in all Republican party history was a teacher and was proud of the fact—President Garfield. He probably does not recall that thousands of men who have climbed to the top rung of fame and fortune got their real training in executive work in the school room.

As for President Wilson, we have never heard it suggested heretofore that he was not an executive. In fact, he has been maligned because he was too much of an executive. He led his party with a singleness of purpose probably never surpassed in all American history. His trouble came only when there were two parties to deal with, and if there has ever been a man on earth who could do anything as president with a divided congress, the World will please mention him. We have not yet discovered him.

The editorial is an insult not only to the teachers, but to the entire state of Oklahoma, and our entire public school system.

The world in general moves, even if the Tulsa World does not. The teacher of today is a power to be reckoned with, along with the men in other lines of business. He is no longer looked upon as a misfit and one who teaches because he can do nothing else. There are many school men in Oklahoma today who would do honor to the position of Governor. In fact, we have them right here in Pontotoc county.

The Evening News

Why Unemployment

Hugo News: The number of unemployed now just about equals Harding's majority last year.

This was the succinct summing up of labor conditions by William J. Bryan, in his few minutes' interview at McAlester Monday.

Even from the partisan standpoint, the thrust was a telling one, because it brings home graphically the conditions of the then and now.

But the News is not so prejudiced as to claim cause and effect in that statement. While it is true that the number of unemployed today just about equals the majority achieved by the president, it cannot be said to logically follow as a consequence. Harding and his administration failed to live up to campaign promises, no doubt, but the unemployment condition today is basically a result of our spendthrift orgy of living. Those who are now out of work are largely members of the great group of "perpetually indolent" who thought not of the morrow when things were good, and who wasted away their substances before the evil days came.

They include those free lances of inquiry, those nomads of the road, those men who don't fit in, who played at working when tasks were easy, little was demanded of the workmen and when wages were fabulous. They were not able, even if willing, to hold jobs when normally began to extend itself over the land.

Understand, the News does not mean to cast reflection on hundreds of sincere men, hard-working men, who have been thrown out of employment, but we do insist that thousands of "Weary Willies" are now treading the streets of the large cities, who trod those same streets years ago, seeking a hand-out then, seeking a handout now.

Poorly equipped in life, mentally listless, lacking in connative ability, they are the nation's drift-wood.

It was largely of this class that made up the barter and sale spectacle in Boston last week. From a standpoint of arousing sentiment, the Boston auction of unemployed was all that could be desired. It gave publicity to a few limelight seekers, and furnished newspapers with sensational copy but after all is said and done, it told only a half truth.

Every employer knows how he fought to keep men with him, last year and the year before. Earnest workmen remained on the job, profiting by good wages and better conditions. Those men have jobs today with few exceptions. The fellows who came into businesses, complained all the time, worked as little as possible and quit on the least provocation and notice—they are the ones who are out of work today, bemoaning their fate and flitting with pity.

Normally as Harding has exemplified it, is not a thing to be desired, but there is one thing that can be said in its favor, it does sift the wheat from the chaff.

Grand Jury Halts Investigation On Arbuckle's Trial

(By the Associated Press)

SAN FRANCISCO, Sept. 20.—Charges that four persons, one of them a principal figure in the Roscoe Arbuckle case, have discussed the likelihood of death financially because of tampering with important prosecuting witnesses were made today by District Attorney Brady. Brady's statement followed the adjournment early this morning of the San Francisco county grand jury delving into this and other incidents in connection with the death of Miss Virginia Rappe, screen actress.

Three persons were heard by the jurors in relation to alleged attempts to tamper with state witnesses. The three were Miss Joyce Clark, Gabor Kingston and Reginald Morely.

SAN FRANCISCO, Sept. 20.—The county grand jury early today adjourned until next Monday night its investigation of an alleged tampering with prosecuting witnesses in the case of Roscoe (Fatty) Arbuckle, film comedian, held in jail in connection with the death of Miss Virginia Rappe, film actress. The grand jury, it is said, also heard the testimony of Dr. William Rumwell, who is alleged to have performed an autopsy on Miss Rappe. No action was taken.

Lions at Banquet Thursday
The Lions Club did not hold the semi-monthly luncheon and business meeting today, on account of the lack of water. The meeting will be held Thursday instead. All the members are urged to be present. Now that summer is over, the club expects to do even greater things.

Let a News Want Ad get it.

JOB AVAILABLE FOR ALL SOONER WORKERS

NORMAN, Sept. 20.—That no self-supporting or partially self-supporting student will be forced to leave the University of Oklahoma this year because jobs cannot be found, is a resolution passed by the Norman chamber of commerce, which will co-operate with the university Y. M. C. A. bureau in finding employment for students. That working to pay expenses in school is more popular this fall than ever before is the opinion of those in charge of the employment bureau.

Although there are more men than jobs right now, the Y. M. C. A. already has placed 59 of the 121 applicants for positions, and assures the others that with the help of Norman business men every applicant will have a job by October 1. Even jobs as dishwashers and waiters which always have exceeded the number of available men for the work are very scarce this fall. However, odd jobs are plentiful and the student who wishes to work after school hours may find some employment.

The Y. W. C. A. has secured positions for all women students who have applied for work, and thus far 25 girls have been placed. The Y. W. C. A. office has more jobs of doing general housework than can be filled by the women applicants.

ADA DELEGATES TO U. C. V. MEET OFF FOR TULSA

Keen to get back into the old Civil War clothes and swap yarns of the days of "G.I." a good county delegation of Confederate Veterans left Ada Monday for Tulsa to take part in the annual state encampment of the United Confederate Veterans.

Ada's group of delegates was supplemented by three old soldiers from Stonewall, and two from Allen shortly before the detail en-trained. Veterans who will represent the local camp at the state convention are Capt. Sam Hargis, Frank Jones, of northwest of the city, Capt. W. C. Neal, and Capt. McCullough. Identification blanks and credentials were furnished Stonewall and Allen delegates but their names were not registered with the Ada camp, according to the camp commander.

The Ada veterans will attend the convention under instructions from the camp to vote for the reelection of the present state commander, General Brewer.

Recruiting has been opened here to get a number of U. C. V.'s, and sons and daughters of the Confederacy, as well as members of the Confederate Memorial association, to attend the annual national encampment of the various Confederate organizations at Chattanooga next month.

In The Oil Fields

Work on the Producers and Refiners well, in the nw nw of sec. 6-3-6, will proceed 200 feet deeper than the original contract for drilling, which was turned over yesterday morning at 1800 feet. Drilling at noon today had progressed about 50 feet beyond the first contract, reports said.

Commercial Printing with class is the kind you get at the Ada News Print Shop. Prices are as low as excellent work will justify.

FALL HOSIERY

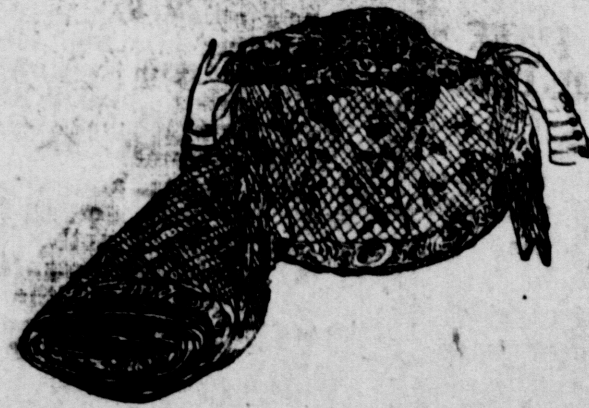

for Smart Footwear

Clinging Snuggness of the New Silk Hose

And only a pair of these gleaming Silk Hose is needed to complete the costume. They are fresh new Fall numbers, so good to look at that you can't help rejoicing in short skirts and low shoes. Beautiful Autumn shades, fine even texture, with a snug clinging fit about the ankle that is unspeakably satisfying.

\$1.50 to \$4.00

Veils That Enhance Those Endearing Young Charms

The new Veils for Autumn seem to have taken a leaf from the book of the belles of great grandmothers' day. Charms are never so enticing as when half concealed. Try the effect of this Veil with the fascinating combination of meshes—or that one with cheille dots to match your eyes,—or the flirty one that droops from your hat brim and lifts a bit with every breeze. You'll want them all.

PONTOTOC COUNTY TO BE STRONG AT THE STATE FAIR

The various agricultural clubs of Pontotoc county will be well represented at the state fair. Twenty full teams of 10 individual members each will exhibit, making a total of 200 club exhibits coming from every township in the county.

In the open class at the state fair about 85 exhibits besides the county about the most extensive exhibit it ever had this fair.

At the county fair there were 12 judges, all of them from other counties. They stated that the school and farm exhibits here surpassed any they have seen anywhere.

After the state fair a booster meeting will be held at which plans will be made and preparations begun for next year's county fair.

GRAVELING FRANCIS AVENUE IS PLANNED

Efforts are being made to secure a contract for the graveling of Francis avenue from Main street to the Lake Road and those who have been pushing the movement started today that they were certain of getting the work started soon. Already the city has a crew of men at work on the hill at the end of Francis avenue and other work will be started as soon as arrangements can be made.

Plans for the graveling for a 30 foot gravelled road from 6 to 9 inches deep. It is believed that this will make one of the best stretches of drive road pointing the city and will also improve the means of getting to the lake. Only a few months ago a new road was selected for the worst part of the route to the lake, and with the entire stretch of more than a mile gravelled, it is believed that travel to the lake will be increased.

Most of the property owners have approved the proposed graveling plan, it is reported. Prospects of getting others to sign are also reported good.

The man who invented a want-ad was on his job. It is the quick road to results. Try one.

DOUBLE GAME ON FRIDAY FOR H. S. IN SIGHT TODAY

Two games on the same day, both with good teams, loomed up before the Ada high school football squad Tuesday and caused increased activity in grid circles as candidates settled down for a determined fight to be selected for one of the trips.

Coach C. R. Cox said this morning that although it was not yet certain that both games would be played, there was a possibility that he will send out two teams Friday afternoon, one to Atoka and one to Weleetka high schools. The Atoka game is assured but a contract for the battle at Weleetka has not been clinched, it is understood.

In case two games, each with a school of good standing in the high school football world are scheduled, Ada high school will face one of the most unique situations in her sport annals. Two teams, each representing the local high school as its first line players, will be in action at the same time. This, however, will not offer Cox's men any particular embarrassment, fans who have watched the squad at work for two weeks believe. Two teams of men have been running "neck-and-neck" on the high school field for the last few days and followers of the sport have been somewhat at loss to pick the better.

With some experienced men in each line-up, Cox will be able to send either eleven on the field against an opposing team with considerable confidence. Just what arrangement of material he will use on the two teams, in case both games are scheduled, has not been intimated by the coach. After the workout this afternoon, however, he will be ready to make his selections for the prospective Atoka and Weleetka tilts Friday, he said.

MINER CONFESSES TO KILLING NIECE

Sheriff Slips Coalgate Man Away To McAlester As Crowd Gathers.

(By the Associated Press)
COALGATE, Sept. 20.—For fear of violence Steve Saba, aged 51, a coal miner, self-confessed slayer of his 18 year old niece Sophia Saba, according to Sheriff A. W. Freeman, was rushed to the state penitentiary at McAlester late yesterday following his capture in an abandoned coal mine a quarter of a mile from the scene of the tragedy which occurred Sunday afternoon at a settlement called Cottonwood, two and a half miles north of Coalgate.

En route to the penitentiary, according to Sheriff Freeman, of Coal County, Saba confessed that he killed the girl.

Miss Saba was stabbed seven times with a knife. Physicians advised authorities that a criminal attack had been made. Saba is a brother of the girl's father.

Parties searching for Saba found him almost exhausted from the mine damps when they pulled him from a mine shaft. They hurried him to Atoka, county seat of an adjoining county of the same name. Saba was lodged in jail where a crowd estimated at 150 persons from Coal county gathered. Fearing that violence would break out, Sheriff Freeman removed his prisoner from the jail, circled around the town, and on the outskirts of Atoka flagged a train for McAlester.

325 TEACHERS IN DOMESTIC SCIENCE COURSE ENROLL FOR STUDY OF ART OF TABLE SETTING

A PERFECT TABLE WITH ITS ARRAY OF SNOWY DAMASK, AND SHINING SILVER

(New York Special Correspondence.)

Many of the students in the fashionable girl's colleges are deciding upon one or more pieces of solid silver for their graduation, starting their silver set in the way their grandmothers collected their hope chests.

This was a bit of the news brought out during the class which was opened recently on table setting. It was the first class in table setting held by an American university. It was a feature of the Domestic Science course in Teachers' College, Columbia University, and it disclosed a great deal of unique lore irresistible to the heart of the average woman.

325 teachers enrolled for the class. They represented 183 different cities in all parts of the United States and five foreign countries.

The class opened in the Gorham building at 36th street and Fifth avenue at ten Saturday morning.

Through the courtesy of the Gorham officials, the teachers had the great building all to themselves. Miss Marguerite Walker Jordan, assistant to President Franklin A. Taylor of the Gorham Company, welcomed the class which was under direction of Miss Van Arsdale, Director of Home Economics, Teachers' College, Columbia University.

Every successful hostess wishes to know how to lay the table for her formal dinner and how to serve it, and the exhibition of wonderful table equipment was simply irresistible.

Mr. Frank Purdy, noted art editor and president Art Alliance of America, spoke of the fine expression of American arts found in silverware. It is only in the last eighteen or twenty years, he said, that the work of native craftsmen has been so highly developed. He predicted that the work of American artists and silversmiths in the next fifty years will surpass those of the greatest in history.

Mr. Witherspoon, one of the editors of the Encyclopedia Britannica, pointed out that solid silverware constantly increases in value, and there is probably nothing in the home that is so valued sentimentally.

The members of the class felt that open stock patterns should be urged so that the family silver can be constantly added to and replenished. Many families are not able to buy a complete set of solid silverware, but if silverware of a continued design is put upon the market, families can add little by little to the set of solid silver which will enhance in value as time goes on.

It is believed that the result of the new class will be far-reaching in stimulating an interest in table setting. The members of the class will all be sent a complimentary copy of the new book on table setting by Claudia Quigley Murphy, the well known authority. Interested women's clubs will also receive a copy.

FIRST BAPTIST EXPECTS 1000 PRESENT SUNDAY

The First Baptist Sunday school is in the midst of a great campaign this week to have one thousand people in Sunday school next Sunday at their annual Rally Day exercises. Sunday afternoon more than seventy-five people met at the church and districted the city and a religious census was taken. These cards have been gone over carefully and a personal invitation will be sent to each Baptist or Baptist inclined person to be present next Sunday morning at the Sunday school hour.

The Men's Bible Class which meets at the McSwain theatre is expecting two hundred fifty men to be present at 9:30. L. A. Ellison is the teacher of this class. A photograph will be made of the class and they are very anxious that every member be present. Other departments of the school are also working in every direction to have their quotas present.

It is confidently believed that if there are one thousand people present that this will be the largest Sunday school in Oklahoma.

If you have something to sell, why not advertise it in the Ada Evening News? That is the quick and certain way to reach the buyers of Ada and other towns of the county? Want ads do not cost

Color and Harmony Secrets For The Home of To-day

Our Curtain and Drapery Department in a Presentation of the Newest Fall Patterns and Weaves

Summer portieres and draperies make your homes distinctive with that added air of grace and beauty. Our stocks are now complete with several arrivals of the foremost in Arabians, Brussels Nets, and other artistic and intricate patterns that at first glance you will say "that they were evidently imported from Marshall Field's foreign designing rooms."

Fine Curtain Nets in a Special Sale \$2.45 Scotch Madras, \$1.59

36 and 54 inch imported Scotch Madras with an originality in design that shows one its beauty and exclusive style. Some depict the old aristocratic Scotch windmill, while the others possess a novelty in design of flowers, etc. This is indeed a good buy; priced at **\$1.59**

DEPARTMENT STORE

24½ Million Dollars Invested by Employees of Swift & Company

More than 21,000 employees of Swift & Company own or are paying for shares in the business. These men and women have attested their faith in the integrity and good will of the company by investing their savings in the business.

Their holdings represent a total of nearly 250,000 shares, the par value (\$100 a share) of which is more than \$24,500,000.

These 21,000 represent more than one-third of our average number of employees!

One man out of every three, in plant, office, and branch house, from the handworker on the floor to the brain worker at the desk, working with us as well as for us, devoting himself to his own business while devoting himself to ours; promoting his own interests in every motion or moment saved, in every product improved or maintained at perfection, in every service rendered through prompt, thorough, effective distribution of products.

This interested, eager group of fellow partners working with us for the good of Swift & Company and the public which we serve, constitutes one-half of the ownership of Swift & Company in point of numbers, and nearly one-sixth in point of shares outstanding.

It represents practical and successful progress toward the end at which enlightened modern industry is aiming for the solution of industrial problems—toward cooperation, mutuality, brotherhood in business, for the good of all.

JOSEPH E. RANKIN'S RIDE TO SAVE HIS COMRADES

One of the greatest rides in frontier history was that of Joseph E. Rankin, a scout with Maj. T. T. Thornburgh, when that officer was ambushed and killed by the Ute Indians September 20, 1879, and his command surrounded on the Milk river in northwestern Colorado. When Capt. J. S. Payne of the Fifth cavalry took command of the beleaguered troops and called for volunteers to ride for help, Rankin was the first to offer himself.

All of the horses in the command had been wounded, but, taking one of the least injured, Rankin made a dash along the back trail and succeeded in getting through the Indian lines. Then in the darkness he headed for Rawlins, Wyo., 170 miles away. The next morning he met a party of soldiers bringing up a cattle herd for Thornburgh, exchanged horses and pressed on.

His new mount soon failed him and he was forced to continue his journey on foot. Luckily he soon reached a hay camp and there obtained another mount. On this horse he rode wearily into Rawlins with his news that evening. He had crossed three mountain ranges, had led his horses over trails too rough to ride in the darkness or because the animals were too tired to carry him and he had covered the distance of 170 miles in exactly 24 hours.

Troops were at once put into motion to rescue Payne. Col. Wesley Merritt, with four troops of the Fifth cavalry reached Rawlins on the morning of October 2. Rankin immediately offered his services as guide and by noon Merritt's command was on its way. When they camped at midnight, they had covered 40 miles.

It was the morning of October 4. Eighty miles away Payne and his comrades were holding off the Utes and praying for the arrival of help. He knew that his colonel would spare no effort to come to his rescue and he believed it just barely possible that Merritt would reach him by dawn of October 5.

It was a custom in the Fifth cavalry for one troop of the regiment to guide another into camp at night by sounding "officers' call." Surrounded by his wounded men, Payne lay in the trenches they had dug, listening eagerly as the first streaks of light appeared in the east. Suddenly the notes of a bugle were heard and "officers' call" floated out on the morning air.

In a few minutes the Utes were retreating sullenly before the steady advance of Merritt's dust-covered troops. Rankin's ride of 170 miles over the roughest country in America and his faithful guiding of Merritt's men had saved Payne and his comrades.

FLYING MAY BECOME SAFE CARRIER SOON

(By the Associated Press)

WASHINGTON, D. C. Sept. 20.—Development of commercial flying in this country to a plane of safety comparable to that in rail and water transportation depends upon government regulation of aviation, according to an analysis of the air traffic situation prepared for Secretary Hoover by the Manufacturers' Aircraft Association.

Mr. Hoover has begun a study of the commercial aircraft problem in the light of the possible establishment of a bureau of aviation to regulate travel by air. Legislation before Congress would put the control of this means of transportation in his department should the Government decide federal regulation advisable.

Lack of federal control, the association declared, was one of the main causes of accidents in the air which gives rise to the belief that flying is extremely dangerous—one of the severest handicaps to the development of transportation by air. There is also lack of official machinery with which to obtain authentic information relative to flying accidents.

However, the association reported, during the first half of 1921 there was but one flying fatality for each 232,142 miles flown by civilians and one injury for every 62,500 miles flown. During these months, the association said, there were 40 serious accidents in civil flying, resulting in the death of 14 persons and the injury of 52 out of a total of 1,200 commercial aircraft which flew an aggregate of 3,250,000 miles.

All of these accidents except five, the association contended, were due to deficiency in the requisites of safe flying which could be enforced by government regulation.

SWAMP
CHILL & FEVER TONIC
GWIN & MAY'S DRUG CO.

TAKE YEAST IN TABLET FORM

SPLENDID RESULTS IN FEW
DAYS FROM NEW VITAMINE
AND IRON TONIC.

Effective, Convenient and
Pleasant to Take.

Thousands of weak, thin, and sickly people have found in yeast the secret of glorious daily health and strength. But there are still many who are not taking yeast in the proper form. They are still eating the ordinary yeast cake, which has been found generally unsatisfactory.

But now at last, all the objectionable features of eating yeast have been overcome. Thousands of people are now taking yeast the new way. They are taking it in convenient, tablet form, combined with iron and other health-builders, and the results in many cases are nothing short of astonishing.

This splendid combination of tonics is known as Ironized Yeast. It is pleasant to take, does not have any disturbing effect on the stomach, and the results are quicker. This is because you gain the benefits of two tonics, instead of only one. Furthermore, Ironized Yeast contains highly concentrated brewer's yeast, which is far richer in vitamins than the ordinary baking yeast.

The reason so many people become weak, nervous, thin, sickly, and worn out easily is because the modern diet, due to modern methods of food preparation, is almost totally lacking in these health building vitamins. Ironized Yeast supplies this lack, and also supplies the blood with the proper amount of iron.

If run-down, weak, anemic, nervous, or if you are suffering with loss of appetite, unsightly complexion, or loss of vitality, try Ironized Yeast. Usually it will show good results after the second or third day. Often it will clean up the worst complexions in less than two weeks.

Ironized Yeast is needed in patented Sani-tape containers and will keep indefinitely. Costs no more per dose than common yeast. Each package contains 10 days' treatment and costs only \$1.00—or just 10¢ a day. Special directions for children in each package. Made by the Ironized Yeast Co., Atlanta, Ga.

IRONIZED YEAST Tablets

HIGHLY CONCENTRATED VITAMINE TONIC

Tanlac is sold in Ada by M. A. Waits and by leading druggists everywhere.

Smoot Proposal Not Included By Senate On Approved Taxes

(By the Associated Press)

WASHINGTON, Sept. 19.—The Smoot proposal for a manufacturer's sale tax is not included in the revision of the house tax bill as formally approved today by the senate finance committee.

While accepting the principles of Senator Calder's amendment to impose a tax of \$6.40 a gallon on all alcohol liquors with bond for other manufacturing purposes the committee did not use the text in the bill to be presented to the senate Wednesday.

Before taking its final vote on the house bill as revised, the committee agreed to an amendment to repeal the one cent tax on amusement admissions charging ten cents or less. Treasury experts estimated this probably would cause a reduction of government revenue by about \$5,000,000.

Let a News Want Ad Get It.

Monday's News carried a column article on the subject of the duties of the county farm demonstration agent. This should have been credited to the Ardmore. The News always believes in giving credit where credit is due but this was overlooked.

Mrs. WAGNER of PALM BEACH

Tells Girls How She Found
Relief From Pain

West Palm Beach, Fla.—"When I was 19 years old I was irregular and I had such terrible cramps it felt like a knife going through me. I took Lydia E. Pinkham's Vegetable Compound and I was cured. After I was married I had the same trouble caused by the added work of farming and heavy washings so I told my husband to get six bottles of the Vegetable Compound and by taking it regularly my troubles ceased and now I never have a pain or ache, and am regular. I recommend Lydia E. Pinkham's Vegetable Compound and think every young girl should take it. You can publish this letter and it may be the means of helping some other girl or woman."

—Mrs. MARY M. WAGNER, Box 759, West Palm Beach, Florida.

While no woman is entirely free from periodic suffering it does not seem to be the plan of nature that woman should suffer so severely and when pain exists something is wrong which should be set right. Every girl who suffers from monthly cramps should give Lydia E. Pinkham's Vegetable Compound a fair trial.

PONTOTOC COUNTY ASSOCIATION MEETS

The Pontotoc County Missionary Baptist Association closed a most successful meeting September 10th. It met with the Baptist Church at York, 9 miles east of Roff. There were about 15 churches represented by messengers. Brother Frank Jackson, the retiring moderator, could not be present on account of illness, and D. W. Swaffar called the body to order.

The election of officers for the coming year resulted in the following being unanimously chosen: Rev. C. C. Morris, Moderator; Rev. J. Thomas Coffee, Assistant Moderator; D. W. Swaffar, re-elected as Clerk; J. J. Copeland, re-elected as Treasurer.

Rev. C. C. Morris, pastor of the First Baptist church of Ada, preached the introductory sermon on Thursday evening. A large crowd was present to hear the message.

The letters from the churches all reported substantial gains in membership, there being something like 200 additions to the churches during the year.

Brother Carlton, one of our General Missionaries, was present and delivered a soul stirring message on State Missions, and Rev. Blount Davidson, our state B. Y. P. U. secretary, delivered an inspiring message on Young Peoples Work.

Rev. R. E. L. Ford, our missionary, made a splendid report of his year's work. Our hearts were made sad when Brother Ford announced to us that he would not be in a position to consider the work for another year on account of his wife's health. We hope and pray that Sister Ford's health may be speedily restored. However, the Association was fortunate in securing the services of so capable a man as Rev. J. H. Page, formerly pastor at Roff, as our missionary for the coming year. Brother Page has accepted the work and will move to Ada within a few days and will make this place his headquarters during the year.

The good people of York were given a vote of thanks for the fine way in which they entertained us while their guests.

The Association voted unanimously to meet next year with the First Baptist Church of Ada. Let the old First church begin now to set herself to prove that she still has her old fine sense of hospitality to God's people and that our hearts and homes are open to our brethren and sisters in Christ when they shall come among us next September.—The Ada Baptist.

DE VALERA QUESTIONS ENGLAND ON MEANING

(By the Associated Press)

LONDON, Sept. 19.—Eamonn De Valera telegraphed Premier Lloyd George today asking whether Mr. Lloyd George's letter of September 17 was intended as "a demand for a surrender on our part or an invitation to a conference of three on both sides without prejudice, should an agreement be reached."

Mr. De Valera says if they meant this, the Sinn Fein confirms its acceptance of the invitation to the conference and its delegates are ready to meet the British representatives anytime in the immediate future.

ONE BRAND- ONE QUALITY- One Size Package

All our skill, facilities, and lifelong knowledge of the finest tobaccos are concentrated on this one cigarette—CAMEL.

Into this ONE BRAND, we put the utmost quality. Nothing is too good for Camels. They are as good as it's possible to make a cigarette.

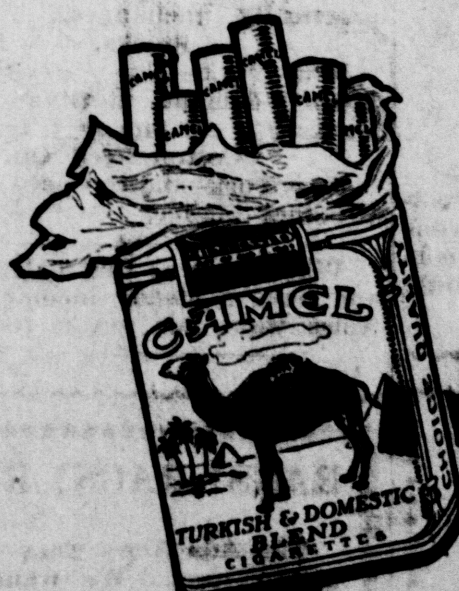

Camel QUALITY is always maintained at the same high, exclusive standard. You can always depend on the same mellow-mild refreshing smoothness—the taste and rich flavor of choicest tobaccos—and entire freedom from cigarette aftertaste.

And remember this! Camels come in one size package only—20 cigarettes—just the right size to make the greatest saving in production and packing. This saving goes straight into Camel Quality. That's one reason why you can get Camel Quality at so moderate a price.

Here's another. We put no useless frills on the Camel package. No "extra wrappers!" Nothing just for show!

Such things do not improve the smoke any more than premiums or coupons. And their added cost must go onto the price or come out of the quality.

One thing, and only one, is responsible for Camels great and growing popularity—that is CAMEL QUALITY.

Camel

GERMAN TREATY TO BE SENT TO SENATE SOON

(By the Associated Press)

WASHINGTON, Sept. 19.—The treaty with Germany probably will be submitted to the senate by President Harding very soon after congressional recesses on Wednesday.

The treaty may be accompanied by a brief message, but it was indicated at the White House today that there was little possibility that the president would appear before the senate in person to urge its ratification.

The Ada Weekly News is gradually becoming a real farmers' news paper, edited by Byron Norrell. It not only has a wide circulation, but an advertisement in it carries also the prestige of its reputation for truth and right dealing.

DURANT NORMAL OPENS SEASON WITH VICTORY

DURANT, Sept. 20.—Southeastern State Normal gridsters who will meet the Ada Normal there on November 18, showed fine early-season form here last week-end by snowing under the Headquarters company, Oklahoma Artillery, by a score of 48 to 0.

Soldiers met more than their equals in every department of the game and were unable to make first downs more than four times. One of these was by the aerial route. Witt at fullback and Craig at halfback were the consistent ground gainers for the Southwestern normal team. Excellent team work which bids fair to send the normal squad far along toward conference championship this season came to light in this game.

Just received a new stock of Exide batteries with new prices.—Kit Carson. 9-15-1mo

Take "VV" Medicines

You get fresh drugs full strength—not diluted to cheapen cost—and the quality is the best. Don't take chances on unknown brands. "V. V." is backed by our reputation and the confidence of millions. Some men are born rich, some have riches thrust upon them and some use News want ads.

Why not sell those extra hens about the place? A News want ad will sell them to advantage.

HARDLY KNOWS HOW
TO ESTIMATE VALUE

"I hardly know how to estimate the value of the benefit I have received from Mendenhall's Number 40" writes Mr. Morris Law, of National Soldiers Home, Wis. "I was a sufferer from chronic constipation of many years standing," he continued, "which finally developed into stomach trouble and I was unable to eat anything that did not cause intense suffering. I tried several doctors as well as everything I heard of that was recommended for my complaint. I was also troubled with catarrh and had dropsical swellings in my feet and ankles which the doctors said was caused by a weak heart. I had about given up hope of getting any better when I read your advertisement for 'Number 40' and concluded to try it. I have taken two bottles and have received such wonderful benefit that I cheerfully recommend it to anyone suffering as I was."

"Number 40" is recommended for blood troubles from any cause; chronic constipation, rheumatism, indigestion, eczema, skin troubles, etc. Acts on the liver, removing waste matter from the system, thus cleansing the blood of all impurities and doing away with the need of cathartic pills and tablets.

224 WOMEN MANAGING
FARMS IN OKLAHOMA

(By the Associated Press)

OKLAHOMA CITY, Sept. 20.—Of the 224 women farm managers in Oklahoma listed in the survey of the United States agricultural census, perhaps the largest job has been undertaken by Mrs. N. C. Dresback, manager of the Dresback-Chandler farm in Muskogee county according to records of the state department of agriculture.

The farm has a diversity of activities, raising fruit, chickens, bees, cattle and hogs. The cattle are used principally for dairying, Mrs. Dresback says.

The farm's activities all are managed by Mrs. Dresback, who does all the bookkeeping and provides for sale and exchange of the products which are marketed.

There are 25 Berkshire hogs on this farm all pure-breds of the Epoch strain, which is being introduced into Oklahoma. The herd now contains prize winners of other states, and some of them will be exhibited at the Free State Fair at Muskogee this year, Mrs. Dresback says.

Among the dairy cattle is a two-

year-old Holstein bull, Matador Segis Walker Farne Boy, son of Matador Segis Walker, from the Carnation Stock Farms at Seattle, Washington.

There were 8,000 baby chicks sold from the Dresback-Chandler farm last year, and there now are 1,000 White Leghorn chickens in the permanent flock. There are enough incubators in the brood house of the farm to hatch 8,000 chickens at one time, according to Mrs. Dresback.

The farm raises all the ensilage necessary to keep the herd of dairy cattle and rough hay for their bedding, besides enough corn and produce for the hogs, she says. All the work of caring for the crops and herd is done under her personal direction.

Fruit is raised both for sale and farm consumption and the bee industry is beginning to show profit, Mrs. Dresback says, ten stands now being in operation.

"I want, for one thing, to show that we are not dependant on cotton raising to make Oklahoma famous agriculturally," Mrs. Dresback says. Her farm, on which no cotton is now raised, once was a worn cotton patch.

"Of course I enjoy the work," Mrs. Dresback says, "Who wouldn't?"

\$6,000,000 IS READY
FOR COTTON GROWERS

OKLAHOMA CITY, Sept. 20.—The entire amount of the \$6,000,000 loan recently approved by the war finance corporation has been made immediately available for the use of the Oklahoma Cotton Growers association, according to telegraphic advice to the association Monday night from R. R. Burkin, treasurer of the war finance corporation.

This quick action in making available government funds to finance the sale of cotton of the members of the Oklahoma Cotton Growers association has been brought about through the efforts of Carl Williams, editor of the Oklahoma Farmer-Stockman, who is now in Washington, according to officials of the association. This brings in to Oklahoma \$6,000,000 in outside money, which will be used by the cotton association in making ad-

VAUDEVILLE STARS SHARE PROGRAMS WITH PRIZE STOCK AT CANADIAN EXHIBITIONS

Vancouver's 1921 Exhibition numbers the Prince of Wales among its exhibitors, for two rams and two ewes, yearlings, have been entered for his Pekisko, Alberta ranch. Though owned by royalty, these sheep stand on a democratic footing and must prove their superiority if they win a prize.

The District Exhibition, a Canadian cousin to the American County Fair, is the annual social event of Canada's rural communities. All over the provinces these friendly competitions are staged during the late summer. With the increase of wealth among Canadian farmers, there is a corresponding elevation

to the tone of these Exhibitions. Crude pavilions give way to substantial buildings. Evening horse shows attract immense audiences and are social events.

Attendance at one of these Exhibitions will prove an eye-opener to any American who harbors an idea that Canadian farmers live "mid frontier hardships. Vast pavilions crowded with pure bred stock—white faced Hereford and stocky Angus Shorthorn cattle, Karakul and Ramboulette sheep, massive Percheron and Clydesdale horses; other pavilions containing extensive displays of wheat and various grains, fruits and vegetables, prove that the northwest is a land of plenty. The acres upon

acres of parked automobiles in which the farmers have come to the gala-fest are proof that the land of plenty has filled the farmers' pockets with wealth.

Excellent show bills are put on at these exhibitions and the visiting New Yorker will be surprised to find vaudeville teams familiar to Broadway, performing on a great open air stage for the entertainment of an audience of twenty or thirty thousand packed into a huge grandstand. Particularly fortunate will be the visitor who chooses an exhibition where the local Royal Canadian Mounted Police are on the program, for they furnish most spectacular displays of horsemanship.

Apricots: Jessie Settles, Ada, first; Mrs. Sloan Palmer, second.

Rhubarb: Mrs. John Boring, Ada, first; Mrs. S. Palmer, second.

Tomatoes: Mrs. T. L. Hudgins, Stonewall, first; Mrs. Walter Price, Oakman, second.

Beans: Mrs. M. F. Dew, Ada, first.

Corn: Mrs. Earnest Roberts, Francis, first; Mrs. Walter Price, Oakman, second.

A TALE of pure delight; one of the great American writer's immortal "kid" stories.

Fit to go along with "Penrod," "Seventeen" or "Too Gentle Julia;" in fact, it is woven about the same interesting characters as the latter.

"The Oriole" deals with "thirteen," that transition age between childhood and youth when one never knows what the young human offspring will be up to next. It is the age when imagination takes the most unexpected turns and fancy plays the queerest pranks.

In this narrative Mr. Tarkington brings to bear all his genius for character, situations and humor. Every line is either a laugh or a study in the delectable ways of the young; the whole is a work of unbounded joy.

Evolution Is Rapid These Days

There never has been a time when conditions changed so quickly—when life bettered itself so consistently—when the inventive turned so readily to new things that better fill old needs.

Ne conveniences and comforts are coming in all the time. And the conditions under which all things are made and sold are subject to frequent alteration.

The rapidity of modern commercial evolution vitally affects us all. And especially it affects the purchasing power of our money.

Whether you buy little or much, in order to buy intelligently, you must keep yourself informed. You must know not only the goods, the styles, the varieties and the price, but you must also know where the goods are to be had.

There is only one way in which you can keep your information up to the minute.

Read the advertisements in this newspaper.

Merchants and manufacturers are advertising in the newspaper for your benefit as well as their own. The advertisements are messages from the business world to you. They tell you what is new in markets and stores. They inform you of all that the world of invention and discovery is doing to make your work easier, your home life more pleasant, your clothing and food problems less difficult.

Read the advertisements regularly!
